

FANS, GEARBOXES & MOTORS

Replacement Fans, Gearboxes, Motors & Drive Shafts

ETS provides a complete overhaul or replacement service of your existing mechanical equipment along with full laser shaft alignment solutions to all industries, UK & Europe.

Our carbon fibre drive shafts replacements, Utilizing carbon-fiber flexible elements with slip-fit, stainless steel hubs are easier to install and align than others using steel torque elements.

Low maintenance, ease of Installation and lightweight to be easily handled by technicians without the need for lifting equipment.

Modern Construction and Robust design of all the part supplied offering an all-inclusive service, cleaning, repairs and maintenance of all types of cooling towers.

Overhaul or Replacement Mechanical Parts we offer

- Replacement electric motors – single speed, two speed, variable speed.
- Coupling or Drive Shaft Assemblies
- Gear Boxes
- Fan blades & Fixing Hubs
- Steel support Assemblies
- Laser Alignment

Summary
